Louis Schmalz, a baker, of 527 Park avenue,

Moboken, complained to the Hoboken police a few days ago that over 500 loaves of bread had n stolen at night from his wagons in front of the bakery. Early yesterday morning Detective Kerrigan arrested Irwin Heiner, a 13-year-old hoolboy of 161 Ninth street, on suspicion of sing one of the thieves. Heiner admitted taking part in the thefts, and furnished Recorder McDonough with a list of his companions, who, he said, stored the bread in a lumber yard on Park avenue. PELLOW JACK IN JAMAICA. The Epidemic Is Still Spreading and the Beath Rate Is High.

KINGSTON, Jamaica, Dec. 1.—The yellow fever spidemic in this island shows no signs of abatement. The weekly number of cases has increased considerably, and the abnormally high death rate still continues. The official report of cases in the public hospitals during the past fortnight gives the number as thirty-four and deaths as eleven. This is the highest number of cases officially reported during any fortnight since the disease made its appearance. The fever is spreading with frightful rapidity among the black and colored population. This class has been comparatively exempt in previous out-

the black and colored population. This class has been comparatively exempt in previous outbreaks. Private practitioners also say that the number of cases attended by them has considerably increased during the past fortnight. The above official numbers do not include patients attended by private medical men. Mrs. Webster, the wife of the Rev. H. L. Webster of the American Society of Second Day Adventists, succumbed to the disease at Montego B. you the 27th ult. She had, with her husband, arrived some weeks ago to attend a local conference here. Several new cases have occurred among the troops and some deaths. The disease, instead of confining itself as hitherto to a few points in the island, has begun to spread and new cases have developed in districts horetofore free. Quarantine regulations are being enforced but loosely.

The greatest excitement has been caused by the action of a Manchester Government medical officer in relation to the death of a yellow fever patient. The Postmistress at a small village called Shooters Hill became ill and died of yellow fever. Ten persons in ill had been in the house where the patient was all and had attended her up to her death. As soon as life had left the body the medical officer ordered these persons to remain in the building where the body lay. He then locked the door and put a constable on guard. The building contained panly two small rooms, each eight feet by the feet. In the evening the door was opened and the body removed, and the door again locked and sealed up. For eleven days these unfortunate persons were immured in this small space and in the heat of a tropical country. Food was supplied them through the windows at the end of a pole. The result was that, mostly from with fever, and of the number three have since died. The incident has been made the subject of a Government investigation.
